INTERNATIONAL INTELLIGENT ALUMINUM
MANUFACTURING EXPERTS

Sheungyin Harvest Aluminium Co., Ltd.

01

COMPANY INTRODUCTION

- Sheungyin Harvest Aluminium Co., Ltd. (SYHARVEST), a large comprehensive enterprise offering one-stop manufacturing and sales services.
- Since 1998, it covers 20,000m² and employs more than 200 people.
- Equipped with advanced domestic production lines for extrusion, powder coating, anodizing, electrophoresis, brushed finishes, wood grain, polishing, and CNC deep processing.
- Specializes in R&D and manufacturing of construction, industrial, decorative, and CNC processing profiles.
- Focuses on the production of CNC machining products and provides high-quality customized machining services.
- A well-known enterprise with strong operational capabilities, comprehensive product specifications, advanced R&D equipment, and remarkable product innovation.
- Our products are sold in Southeast Asia, the Middle East, Africa, South America, Europe, and other regions or countries.
- Selects the best aluminum raw materials to ensure the production of top-quality products.
- Business principles include offering excellent service, competitive prices, high quality, and timely delivery.

SURFACE TREATMENT

Mill Finish

Raw materials aluminum ingot purity 100%, performance to adopt various processing secondly.

Finish of aluminium itself, with a natural anodic layer formed in the air, weak corrosion resistance.

Powder Coating

Film thickness more than 40mu, surface smoothly, colorful products with various mechanical performance to adopt all kinds of architectural style.

Available in all kinds of colour.

Wood Grain

New technology in finishing to form a texture look like real wood. 13years quality assurance, corrosion-resistant, durable, shining and decorative.

Available in types of wood pattern, Hand touch or film transferring are both available. Customized accepted.

Anodizing

Oxidization film thickness more than 13mu, even color, without mechanical lines, corrosion-resistant, durable, shining and decorative. Available in different colors like metal silver, champagne, dark bronze, black, and the same color with matt effect.

Polishing

By buffing and chemical process to form mirror like finish, suitable for decorative application.

Available in all kinds of colour.

Electrophoresis

13 years quality assurance, color elegantly and even color, surface without grain glossy surface, go corrosion-resistance, highly-wear resistance, high surface and brightness.

Available in different colors like metal silver, champagne, black, and the same color with matt effect.

Brushed

By brushing and chemical process to form shining with line, suitable for decorative application.

Available in all kinds of colour.

PACKING & CUSTOMER VISIT

Aluminium Profile Packaging Detail:

1. inner: plastic protective film or PE foam, polybag for each piece.
2. outer: packed with the waterproof craft paper, wooden shelf or wooden frame
3. packed according to customer request.

CUSTOMER VISIT

08 WHY CHOOSE US?

1. Original manufacturer, more competitive price and more superior services.
2. No Minimum Requirement.
3. 100% QC + 100% Quality Guaranteed.
4. One-stop CNC Machining Service Supplier.
5. High-Efficiency, fast turnaround and first-class services.
6. Within 4 hours quotation; lead time from 3 days
